

2018 COMMERCIAL LIGHTING INCENTIVE APPLICATION INSTRUCTIONS

ELIGIBILITY

- Energy efficient lighting incentives are available to commercial and agricultural retail customers.
- These incentives are for replacement lighting systems only. New construction projects are not eligible.

REQUIREMENTS AND CRITERIA

- The replacement lighting must be installed at a location served by the Cooperative.
- Once the project is complete, an application along with a dated and itemized invoice with quantity, manufacturer, model number and cost for each piece of equipment must be submitted within 60 days of completion in order to receive an incentive payment. Any project completed/invoiced after two months may no longer be funded.
- The rebate amount is based on the total watts saved times \$.10 per watt.
- The rebate amount cannot exceed 50% of the project costs or a maximum of \$1,000 per account. The lifetime maximum for the commercial lighting program is \$5,000 per member.
- Energy Star LED replacement fixtures/bulbs are required to qualify for any incentive.
- Replaced equipment must be removed from service with any and all hazardous waste components recycled.
- Equipment must be installed and operating prior to submission of application.
- The minimum rebate that will be processed is \$50. A check will be issued for rebates over \$200; a bill credit to the account will be issued for rebates under \$200. Please allow up to 45 days to receive rebate.
- Rebate dollars are limited and will be paid on a first come, first served basis. The program is subject to change or cancellation without notice. The cooperative reserves the right to limit incentives.

HOW TO APPLY

1. Complete the following rebate application.
2. Attach a dated and itemized invoice with quantity, manufacturer, model number, cost for piece of equipment along with wattage verification for the LED bulbs which you are requesting a rebate.
3. Return completed application and supporting documentation to:
