Important Information Regarding Sioux Valley Energy's Westinghouse Water Heater Program:

►Water heaters sold must be installed at a service location receiving electricity from Sioux Valley Energy. The Westinghouse water heater is available for agricultural, commercial, and residential applications.
►The member must agree to participate in the load management program for the lifetime of the installed Westinghouse water heater which is also in compliance with the Department of Energy regulations. This includes allowing SVE personnel to connect necessary equipment and perform periodic maintenance during normal business hours. Failure to comply with load management requirements as defined by the Department of Energy may void the warraranty of the water heater and will result in the member being billed for the balance of the full retail cost.
►Under the water heater purchase program, the disount is given upfront at the time of purchase in lieu of a monthly load management credit.
►This water heater is considered a grid-enabled water heater per the definitions of the Department of Energy. The enabling device located in front of the second element has been unlocked.
►A contractor may purchase/pick up the water heater at a member's request which constitutes acknowledgement of the terms of the water heater program by the member.
►Special Pricing: $400 plus applicable sales tax for any size – 80,115 gallon. Some restrictions may apply if replacing a previously rebated water heater less than 10 years old. The water heater must be paid for at the time of pick up. Program dollars are limited - water heaters will be sold on a first come, first served basis. The water heater program can be changed or cancelled without notice.
►The member agrees to give Sioux Valley Energy permission to supply the member information obtained below for product warranty registration.
►The water heater must be installed within 90 days of purchase in order to be registered for a lifetime tank warranty for the original purchaser. Upon the completion of the water heater installation, the member must contact the Customer Electrical Service Department to schedule the installation/maintenance of load management equipment equipment.
►No returns will be accepted after 90 days. The water heater may be returned within that timeframe if the water heater is not damaged, the packaging is intact, and all literature is included.

Westinghouse Water Heater Warranty:

Ag/Commerical and Single Family Dwelling Applications:
►A water heater installed in a ag/commercial or single family dwelling application and owned by the original purchaser and not part of leased/rental situation carries a lifetime tank/6-year parts warranty.
►The product must be registered to qualify for the lifetime tank warranty. Failure to register the product reduces the warranty to 10-year tank/1-year parts. There is no warranty conversion for future owners.
►The warranty conditions are subject to the proper installation of the water heater according to Westinghouse guidelines.

Residential Rental Properties and other Leased/Rental Applications:
►A water heater installed in any leased/rental property carries a 10-year tank/1-year parts warranty.
►The warranty conditions are subject to the proper installation of the water heater according to Westinghouse guidelines.
